

**5th Edition of the Official Master Course on
“Neurosciences and Behavioral Biology”
Universidad Pablo de Olavide, Sevilla, Spain**

Aims and scope:

This Master Course is aimed for the detailed study of present knowledge on brain structure and functions. The Course is open to Latin-American graduate students (Medicine, Biology, Biochemistry, Psychology, etc.) interested in the different areas of the Neurosciences. Solicitants should be aware that, although some lectures will be in English, most of the teaching will take place in Spanish. The course is divided in four parts: (i) On-line teaching (October-December, 2010); (ii) Introduction to the Neurosciences (January-March, 2011); (iii) Advanced Courses on Neuroscience and Behavioral Biology (April-June, 2011); and (iv) Technical formation in Neuroscience (June 2012)

Director of the Course:

Prof. José M. Delgado-García
Head, Division of Neurosciences
E-mail: jmdelgar@upo.es

Early registration is already open at:

<http://www.juntadeandalucia.es/innovacioncienciayempresa/sguit/convocatorias/masteres2010/>

Information regarding early registration procedures, registration fees, fellowships, lodging: <http://www.upo.es/postgrado/>
